PROFILE

Currently a Graphic Designer with special interests in Corporate Identity and Branding. My love for design and all things graphic started when I was in Japan. The harmonious relationship between the neon lights and zen-minimalism put me in awe as they live together in peace. This sparked my feelings for the many graphic styles such as Brutalism, Swiss Style, Grunge and even punk. The deeper I looked, the more there was for me to explore. I am looking for all experiences that would help me grow as a designer.

TOOLS & SKILLS

Adobe Illustrator
Adobe InDesign
